

UBUNTU DAO

WHAT IS UBUNTU DAO?

Ubuntu Dao is a community driven project that seeks to drive the adoption of Blockchain Technology in Africa through education, the stimulation of a creator ecosystem and strategic charity. This project will position Africa in the fore-front of this breakthrough technology, not just through its usage, but also in the creation of innovative solutions which will be adopted globally. The movement has already begun to transit Africa from a default consumption tilt to becoming production conscious and the Ubuntu Dao Project further emphasizes the truth that Africans are innovative enough and we can change 'our' world and sure enough, 'the' world.

The Ubuntu Dao Project seeks to confront the *status quo* and position Africa as trend setters and producers rather than a 'ready market' that holds relevance only in the game of consumption.

VISION

To accelerate the attainment of a thriving Blockchain Ecosystem in Africa, powered by innovation, far-reaching adoption and collaboration.

MISSION

Building an ecosystem that fosters unity, patriotism and citizen-driven development through the decentralized economy.

OBJECTIVES

- To position Africa as a major player in the global tech landscape through the creation and adoption of innovative homegrown solutions utilizing Blockchain Technology.
- To power the startup and scale of solution-centric Blockchain Projects in Africa.
- To drive the creation and adoption of African products within Africa.
- To promote the Pan-Africanist worldview and ignite unity amongst Africans.

KEY FEATURES

1. 100% community driven.
2. Pan-African approach.
3. Strategic Charity through DAOs (Focus on Education, Entrepreneurship, Energy, Healthcare, Children and Women).
4. Transparency

CARDINAL IMPACT AREAS

1. EDUCATION: Our education programs would be strategically tailored to drive adoption and innovation (i.e. a proliferation of web3 startups across Africa) – Blockchain Education for individuals at entry level, Blockchain Education for intermediate level users, Blockchain Education for Developers, Blockchain Education and Economic Empowerment for African Women.

2. INNOVATION AND ENTREPRENEURSHIP: this is one of our key channels to contribute to economic growth across African countries. The Ubuntu Dao Project will leverage its community to incentivize innovation and entrepreneurship especially with the utilization of Blockchain solutions in industries such as Agriculture & Food Supply, Education, Healthcare, Energy, Media, Finance, etc.

3. MEDIA: Drive Blockchain awareness in Africa through media communications and research publications.

PROJECTS WITHIN THE UBUNTU DAO ECOSYSTEM

- **UBUNTU FOUNDATION:**
- **UBUNTU CAPITAL:** Venture fund for African Blockchain Startups.
- **MADE IN AFRICA E-COMMERCE STORE:**
- **AFRICA BLOCKCHAIN DEVELOPERS INSTITUTE:**
- **UBUNTU NFTs**
- **UBUNTU GAMES**
- **THE LITTLE PHILANTHROPISTS PROJECT**

TOKENOMICS

Max Supply = 500,000,000,000,000

Treasury = 400,000,000,000,000

Total Supply = 150,000,000,000,000

- **Presale:** 30% of the total circulating supply will be allocated for Presale.

Presale Price = 0.00000005

TOTAL SUPPLY ALLOCATION

Presale = 30%

Ecosystem Development & Developer Bounties = 20%

Marketing = 10%

Liquidity = 20%

Ubuntu Foundation = 10%

Charity = 10%

ROADMAP

- * Community Building
- * Website Launch
- * Partnership Announcements
- * The Little Philanthropists NFT Release
- * Presale
- * Official TGE
- * Decentralized Exchange Listing

- * Listing on Coinmarketcap and Coingecko
- * Centralized Exchange Listings
- * Auditing
- * Development of the Blockchain Education Platform
- * Concept Launch for the 'Made in Africa Project'
- * Team Formulation and Development of E-commerce Platform
- * Roadmap Update
